We have strived to improve the quality of our herd by using top-quality genetics. As a result, our females have competed well at many contests through the years. These five yearling heifers are the result of our dedication to herd quality. Our growth and performance come straight from the prairie. These heifers are raised alongside and expected to perform on the same groceries as the cow herd.

See the documents section for complete information about the ranch and its program.

**Quantity:** 5
