Alex & Cassie Heim
Wood, SD
(605) 770-6190

Average weight on the group was 1143 pounds on 12/31/22.

Heifers are current on all vaccinations and wormed.

These 5 bred heifers are sure to be some calf raisers that someone could enjoy starting a herd with or add some nice genetics to their existing herd. These heifers were picked from a large group of bred heifers that were developed and bred on grass. They have had range cake and supplemental feeding since early November to aid growth and development and ensure good body condition coming through winter and calving in the spring of 2023! They are bred to quality bulls that come from the Heim bull battery. The heifers were ultrasound tested on October 4th to confirm pregnancy and ensure that they will be all early-calving heifers. The heifers' average weight on December 31, 2022 was 1143 lbs. Individual weights are: 1152, 1152, 1146, 1144, 1125.

See the documents section for complete information about the ranch and its program.
